

ITSO Symposium
Satellite Developments Shaping Connectivity
An ITSO Perspective

Pre-Event to the 42nd Assembly of Parties (AP-42)
29 September 2026 (14:00 – 17:00)

PROFILE OF THE SPEAKER

MS. SITARA MEHDIYEVA

Head of Spectrum management Division - Azercosmos Space Agency

Sitara Mehdiyeva is the Head of the Spectrum Management Division at Azercosmos, bringing over 14 years of expertise in the satellite industry. With a strong academic foundation in Physics and Microelectronics from Baku State University, she has advanced from engineering roles to leadership in satellite operations. Sitara is recognized for her contributions to spectrum management, including coordination, interference mitigation, and regulatory compliance. Passionate about knowledge sharing, she designs and delivers training programs for industry professionals, government officials, and aspiring engineers. She is also a candidate for the upcoming **2026 election to the ITU Radio Regulations Board (RRB), representing Region C**, reflecting her commitment to contributing to the development of the international satellite regulatory framework. Actively engaged in international forums, Sitara plays a key role in shaping discussions on the future of satellite communications, ensuring Azercosmos remains a competitive force in the global space industry.
